Bootcamp Grad, SOFTWARE ENGINEER

Rising software engineer with experience in **Python (Full-stack)** and **MERN**. Self-starter, fast-learner, and strong communicator. In bootcamp, I learned two full stacks which demonstrates my capacity to learn new technologies quickly.

Core Competencies

- ✓ HTML, CSS, JavaScript
- ✓ RESTful APIs
- ✓ Object-Oriented Programming
- ✓ Python
- ✓ MySQL
- ✓ Flask
- ✓ React.js
- ✓ MongoDB
- ✓ Node.js

EDUCATION

Bachelor of Engineering – **Civil and Environmental Engineering**, Mississippi State University Starkville, MS

PROFESSIONAL EXPERIENCE

[Dec, 2021] – [July, 2022] **Coding Dojo Academy** Austin, TX

Student

- **Web Fundamentals: HTML, CSS, JavaScript**
 - Built webpages based on wireframes and added functionality with vanilla JavaScript
- **Python: Full-stack: Python, MySQL, Flask**
 - Built several CRUD websites using MVC model.
 - Built a personal blogging site that includes user login/registration and validations. The blog also pulls data from Medium's API and displays my most recent posts.
- **MERN: Full-stack: MongoDB, Express.js, React.js, Node.js**
 - Built component based portfolio using React.js.

[June, 2016] – [Nov, 2018] **VAAM LLC** Starkville, MS

Co-Founder, CEO

- Taught myself Sketch and Adobe Photoshop and designed entire UI for the app.
- Experienced entire software development process from initialization to launch.
- Taught myself JavaScript basics.
- Created graphical representations of collected data from market research.

LEADERSHIP EXPERIENCE

[March, 2022] – [Present] **"In The Lab" Study Group (with cohortmates)** Austin, TX

Initiator

- **Every Saturday, we explore cool things about code and try to make things work.**
 - Discoveries have included pulling data from APIs, integrating public Github Repos, responsive web design principles.

Other highlights:

- Started a week-long summer enrichment camp for boys in my hometown, 2016 – 2017
- **Interests:** Stock market, Writing, TED Talks, Autobiographies, the art of conversation
